

Please don't weaken or take away the Do Not Call List in NJ. My husband and I moved last fall, and until we signed up for the Do Not Call list we were getting calls almost every day. It was horrible! Sometimes early in the morning, sometimes at night. I value my peace and quiet at home. I do not accept solicitations over the phone no matter what. Allowing telemarketing also gives more opportunity to scam artists who are looking to take advantage of unsuspecting & naive individuals. I think it is good the way it is.
